Zoe can solve codes - but can she solve her weird middle school?

- Zoe thinks her family doesn't understand her. Is she right?
- How different is Lorna Hubbard from your school? Are the differences bigger than "no red pens, no bells"? Would you like to go to a school like this?
- Do you think Dara is a bad friend to Zoe?
- Should Lucas stay at Lorna Hubbard? What do you think would happen if he did?
- What do you think of Signe's teaching methods? Would they work on you?
- What do you think Zoe gets out of her job at Isaac's?
- If you could have a talent, either from the book or not, what would it be?

Would having that talent create any challenges for you?
